

Beam Mobile is the leading solution for protecting iPhone and iPad cases in healthcare. Our products are built with disinfectant-ready plastics for safe cleaning. We provide swappable batteries to extend usage with EHR systems such as Epic, Oracle, and Meditech, allowing doctors and nurses to stay mobile. And we've been dropped from elevators to atriums without damage. When it comes to protecting your investment, there's no better option. Our complete line has multi-bay charging stations, optional holsters, and customized branding for hospitals.
